DECEMBER 2024

MESSAGE FROM CILTM PRESIDENT PROFESSOR DR MUHAMMAD ZALY SHAH FCILT

This incredible year, 2024, has been nothing short of extraordinary. We've confronted daunting challenges, reveled in significant victories, and most importantly, we've emerged stronger and more united than ever. A wise person once shared that true success in our industry transcends simply transporting goods from point A to point B – it's about touching hearts and transforming lives. And that is precisely what we have accomplished with resounding impact this year.

What truly makes my heart swell with pride is welcoming nearly 500 new members during our recent Convocation into our professional family. Think about that number for a moment – 500 unique stories, 500 different journeys, all converging at our Convocation. From the valiant members of our armed forces, who've served our nation with distinction, to experienced professionals who've spent decades perfecting their craft, to bright-eyed graduates ready to make their mark – each one brings something special to our table. This diversity isn't just a number; it's our strength. It's what makes us whole. When we combine the wisdom of experience with the energy of youth, there's no challenge we can't overcome, no horizon we can't reach.

MESSAGE FROM CILTM PRESIDENT PROFESSOR DR MUHAMMAD ZALY SHAH FCILT

This year also taught us something profound about who we are and what we stand for. When floods devastated communities, we didn't just watch from the sidelines – we jumped into action. Our WiLAT Malaysia CSR programs became more than just corporate initiatives; they became lifelines. We saw firsthand how our expertise in logistics could mean the difference between despair and hope. When supplies needed to reach flood victims, it wasn't just about transportation – it was about delivering relief, comfort, and the promise of tomorrow to those who'd lost everything. These moments reminded us that our real value isn't measured in successes, but in the lives we touch and the communities we serve.

Let's talk about MALTRAC, a CILTM-UMT Centre of Excellence, for a moment. Securing federal grants isn't just about the funding – it's about recognition. Recognition that our COE is doing work that matters, work that can change our industry for the better. This success didn't happen by accident. It happened because we dared to think bigger, to push boundaries, to ask "what if?" When we combine our practical experience with cutting-edge knowledge, we're not just solving today's problems – we're preventing tomorrow's challenges. This, indeed, epitomizes leadership in our industry.

Success is a wonderful thing, but it can also be dangerous if we let it blind us. The moment we think we've reached the summit is the moment we stop climbing. But I know CILTM, and I know that's not who we are. We're visionary dreamers and doers. We're innovators and problem-solvers. When we work together, share our knowledge, and support each other, there's no limit to what we can achieve. The challenges of tomorrow will be different from those of today, but together, we're ready for them.

As we stand at this moment, reflecting on our accomplishments and forward to our future, I'm reminded of why we chose this profession. We're not just moving goods – we're connecting people, enabling dreams, building futures. Being the beacon of our industry isn't just about leading the way; it's about lighting the path for others to follow. Every one of you, members of CILTM, is part of this light. Together, we're not just bright – we're brilliant. Let's carry this spirit forward, knowing that our best days aren't behind us – they're just ahead.

Thank you for being part of this journey in 2024, and here's to writing the next chapter of our success story together.

Professor Dr Muhammad Zaly Shah FCILT
President
CILTM Malaysia

GREET & MEET

Stronger Together

UNIVERSITI
MALAYSIA
TERENGGANU

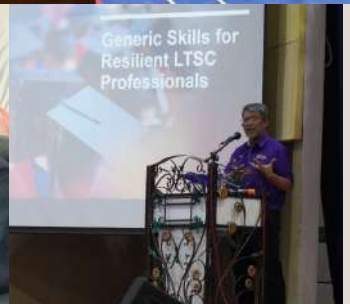

The Professional Certification Program Launch Ceremony was officiated by YBrs Prof Dr Mohamad Salmi bin Mohd Sood, Chairman of the Board of Directors of Universiti Malaysia Terengganu (UMT), this morning at UMTSEA, CP Tower, Damansara Petaling Jaya. During the event, certificates were handed over to CILTM President, Professor Ts Dr Muhammad Zaly Shah FCILT, in the presence of the Director of MaLTrAC and the Head of CILTM Secretariat. This ceremony marks an important step in recognizing the professional certification program, offering professionals the opportunity to enhance their credibility and skills in their respective fields

On 18 December 2024, Kolej Profesional MARA Bandar Penawar hosted an event titled "Unlocking Opportunities with CILT: A Path Towards Professional Growth," attended by over 450 Diploma in Integrated Logistics Management students. The session featured Prof. Ts. Dr. Muhammad Zaly Shah FCILT President of CILT Malaysia and International Vice President for Southeast Asia.

The event aimed to inspire students to engage with the Chartered Institute of Logistics and Transport (CILT) for career development. Prof Dr. Muhammad Zaly Shah FCILT highlighted the importance of continuous learning, industry readiness, and professional growth in logistics, emphasizing CILT's role in providing training, certifications, and networking opportunities. Key discussions covered logistics and supply chain challenges, focusing on sustainability, technological advancements, and competencies like data analytics, AI, and green logistics. Soft skills such as communication, leadership, and cultural intelligence were also emphasized. The event motivated students to pursue professional certifications and engage with CILT, ensuring they are well-equipped for careers in the logistics and transport sector. This initiative bridged the gap between academic learning and industry expectations, preparing students for success in the competitive field.

Empowering New Graduates in Logistics, Transportation, and Supply Chain (LTSC) through CILT

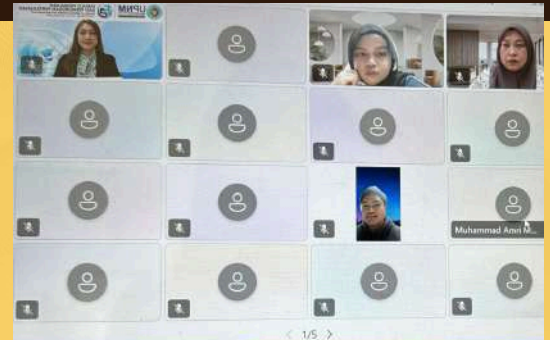

On December 8, 2024, the Women in Logistics and Transport (WiLAT) Malaysia organized a Meet and Greet event in collaboration with Universiti Utara Malaysia (UUM) and the CILTM Outreach Program: CILTM Talk. This exciting event featured prominent thought leaders and experts in logistics and sustainability, who provided valuable insights into the latest trends and challenges within the industry. Participants had the opportunity to network, exchange ideas, and connect with professionals from various sectors. The event showcased key speakers, including CILTM President Professor Ts Dr. Muhammad Zaly Shah, WiLAT Malaysia Chairperson Assoc. Prof. Ts Dr. Jessica Ong Hai Liaw FCILT, and NextGen Malaysia Chairperson Dr. Hazariah Binti Mohd Noh CMILT. Together, they shared their expertise in logistics, sustainability, and professional development, playing a significant role in fostering meaningful discussions and connections within the logistics industry. The event was skillfully moderated by Dr. Rohafiz Sabar CMILT, Chairperson of the CILTM Kedah & Perlis Section. Her expert moderation ensured smooth discussions and facilitated the exchange of valuable insights among the esteemed panelists and the audience. Dr. Rohafiz's experience and leadership in the logistics field greatly contributed to the event's success, creating an engaging and insightful experience for all participants. More than 60 students attended the program and gained valuable knowledge from the expert speakers in their respective fields.

Universiti Tun Hussein Onn Malaysia (UTHM), in collaboration with WiLAT Malaysia and the CILT Malaysia Johor Section, organized a hybrid event titled "From Classroom to Career: Cultivating Soft Skills for Success in Logistics." The event took place both at UTHM and via Zoom, starting at 9:00 AM. Its goal was to assist students in transitioning from academic learning to professional success in the logistics industry. The keynote speaker, Assoc. Prof. Ts. Dr. Jessica Ong FCILT, who serves as the Council Chairperson of WiLAT Malaysia, CILT, and a lecturer at UPNM, shared valuable insights into the importance of soft skills in logistics. Dr. Jessica Ong emphasized the necessity of communication, leadership, adaptability, and problem-solving skills, which are crucial for excelling in logistics and supply chain management. The session offered students practical advice on developing and enhancing these essential skills, ensuring they are well-prepared for the challenges and opportunities they will encounter in their careers.

UNIVERSITI TUN HUSSEIN ONN MALAYSIA

Dato' Ts. (Dr) Abd Radzak Abd Malek, Hon FCILT, had the opportunity to meet with Capt. MAK from CILT Bangladesh, as well as delegations from CILT Hong Kong and CILT Singapore. We look forward to the continued strengthening of these valuable relationships for years to come.

Stronger Together

Greet & Meet

What an exciting invitation! The gala premiere of 'The Story of TARCians' promises to be a deeply moving journey through the rich history of TAR College. This documentary beautifully commemorates the late 1960s and early 1970s, highlighting the resilience, vision, and dedication of the institution's pioneering founders. By weaving together personal stories and historical milestones, the film not only celebrates the past but also aims to inspire pride in the enduring legacy of TAR College. Congratulations to Tunku Abdul Rahman University of Management and Technology (TAR UMT)!

On 14 December 2024, Assoc. Prof. Ts. Dr. Jessica Ong FCILT, Chairperson of WiLAT Malaysia CILTM, hosted a Meet and Greet session and research engagement with the community in Kuching, Sarawak, to celebrate the festive season. The event was designed to strengthen ties between WiLAT Malaysia and the local community, fostering a spirit of togetherness during Christmas. The celebration featured research presentations, interactive sessions, networking opportunities, and festive activities. This gathering underscored WiLAT's commitment to empowering women in the logistics and transport industry, as well as supporting persons with disabilities. A special thank you to the Community-Based Rehabilitation Organisation (CBR) Seri Batu Kawah for their contribution to the event.

MEET & GREET WILAT GLOBAL

Meet and Greet WiLAT Malaysia CILTM and WiLAT Global in Malaysia. Welcome to Malaysia! The theme “WiLAT CILT Fly Up High, Stronger Together” reflects our unwavering commitment to fostering unity, growth, and global collaboration. This event emphasizes our shared dedication to advancing leadership, mentorship, empowerment, and entrepreneurship within the logistics and transport industry. We extend our heartfelt gratitude to everyone who has joined us on this inspiring journey. Together, we continue to pave the way for a stronger, more inclusive future for Global WiLAT.

The Career & Life Formula (CALF) 2024 program, a prestigious global initiative endorsed by CILT International and organized by WiLAT Global in cooperation with WiLAT Malaysia CILTM, was successfully held from 2nd to 5th December 2024. We extend our sincere thanks to everyone involved in the program's planning and arrangement. Your dedication and support were instrumental in making this event a success.

Improving Pedestrian
Walkability & First Last Mile
Mobility to Public Transportation

INDUSTRY LEAD BODY (ILB) - SAFETY DRIVING CENTRE (SDC)

In the era of rapid urbanization, improving pedestrian infrastructure and ensuring effective last-mile connectivity are critical components of a modern, efficient transportation system. As cities grow denser, pedestrians—the most fundamental element of urban mobility—often face challenges that hinder seamless travel. Issues like poorly maintained sidewalks, unsafe crossings, and limited access to public transit stations prevent efficient movement for city dwellers.

The scene depicted above, with office workers navigating a pedestrian crossing amidst active vehicle traffic, serves as a testament to the urgent need for enhanced pedestrian walkability. Pedestrian walkways must provide safety, comfort, and direct connectivity, particularly for those relying on public transportation.

Why Walkability Matters

Improving pedestrian walkability benefits society at multiple levels:

- 1. Environmental Impact: By encouraging walking, we reduce carbon emissions and pollution. A well-connected pedestrian network reduces dependency on vehicles.**
- 2. Health Benefits: Walking enhances physical and mental well-being, combating the sedentary lifestyle associated with car-dependent cities.**
- 3. Economic Advantages: A pedestrian-friendly environment boosts local businesses and makes urban centers more livable and attractive to investments.**

SAFETY FIRST

Improving Pedestrian Walkability & First Last Mile Mobility to Public Transportation

City planners must prioritize:

- **Safe Crossings:** Clearly marked pedestrian crossings, traffic signals, and speed-calming measures for vehicles.
- **Accessible Infrastructure:** Continuous sidewalks, proper lighting, and wheelchair-accessible pathways.
- **Connectivity:** Pedestrian paths leading seamlessly to bus, train, or transit stations.
- **Mobility Friendly Infrastructure:** for differently abled users to ensure their needs are not overlooked and marginalised.

The Role of First and Last Mile Connectivity

I am currently on pilgrimage in India where the issue of last mile connectivity has been resolved via the use of gas-powered auto rickshaws, now progressively converted to electric rickshaws. These electric vehicles serve as a sustainable and affordable solution to bridge the gap between major transportation hubs and the final destination. This transformation not only improves accessibility but also contributes to environmental sustainability.

Malaysia can take inspiration from such progressive models, incorporating electric rickshaws or similar eco-friendly alternatives to ensure that public transportation becomes a convenient choice for all.

INDUSTRY LEAD BODY (ILB) - SAFETY DRIVING CENTRE (SDC)

Figure 1 Autorickshaw for First and Last mile mobility enhancement

The Path Forward

For Malaysia to achieve world-class mobility infrastructure, we must:

1. **Invest in Safe Pedestrian Infrastructure:** Cities must integrate pedestrian pathways as core components of urban planning.
2. **Enhance First/Last Mile Options:** Solutions like electric shuttle buses, bike-sharing programs, or rickshaw services can bridge transit gaps effectively.
3. **Promote Behavioral Change:** Through campaigns, encourage citizens to adopt walking and public transit as preferred modes of travel.

By addressing these issues, we can transform urban mobility and ensure that every individual, regardless of their age or ability, enjoys safe and seamless movement within our cities.

CILTM Section Activities

Penang Section

On 13 December 2024, CILT Penang Section's Chairman, Dato' Log. Ts. Chang Kah Loon, FCILT, FLogM, along with Treasurer Log. Ts. Amy Ooi, FCILT, FLogM, and Secretary Log. Eunice Chang Qi Ying, CMILT, MLogM, met with key personnel from the Department of Skills Development (JPK), Ministry of Human Resources. JPK invited Dato' Chang to contribute to the development of the curriculum for JPK NOSS in maritime logistics, leveraging his 30+ years of experience in the field. This highlights the professionalism of CILT's chartered logisticians in advancing industry standards and talent development in Malaysia's logistics sector.

On 14 December 2024, Dato' Log. Ts. Chang Kah Loon, FCILT, FLogM, Chairman of CILT (Penang Section), and Log. KW Leong, FLogM, CMILT, Vice Chairman of CILT (Penang Section), attended the 149th Anniversary Dinner of the Penang Chinese Town Hall (PCTH), with nearly 1,000 industry and community leaders present. During the event, Dato' Chang was presented with a plaque commemorating his conferment of the "DSPN" title, while Log. Leong received a plaque for his "PJK" Meritorious Service Medal. The event was attended by key figures, including the Chief Minister of Penang, YAB Chow Kon Yeow, celebrating PCTH's significant community impact.

CILTM Section Activities

Penang Section

On 5 December 2024, Log. Ranni Selvaraju, PJM, MBA, CMILT, CLM, MLogM, VTO, FAKA, representing LogM, CILT (Penang Section), WiLAT (Penang Section), and AK Shipping, conducted a sharing session in Penang titled "Empowering the Workforce: Industry Insights of Transportation and Logistics Sector."

On 9 December 2024, Dato' Log. Ts. Chang Kah Loon, FCILT, FLogM, attended the Penang Economic, Education, and Environmental Forum at Jen Hotel, Penang. Organized by the KSI Strategic Institute for Asia Pacific, the forum brought together representatives from government-linked companies (GLCs), trade associations, and various industries, offering valuable opportunities for knowledge exchange and networking.

CILTM Section Activities

Pahang Section

24 December 2024: Courtesy Visit by CILTM Pahang Section and WiLAT Malaysia to YB Dato' Hajah Sabariah binti Saidan, EXCO for Social Welfare, Women, and Family Development of Pahang at the Sultan Ahmad Shah Administrative Centre (PPSAS), Kuantan, Pahang.

The visit aimed to strengthen collaborations and explore opportunities for enhancing social welfare initiatives and empowering women in the logistics and transport sector. Discussions also centered on strategies to support family development programs throughout the state. Two key programs are planned to be co-organized in Guai, Bera, and Kuala Lipis in February and May 2025.

We sincerely appreciate the warm reception and valuable insights shared by YB Dato' Hajah Sabariah during the meeting. Our heartfelt thanks to Dato' for her unwavering support and commitment to community development.

CILTM Section Activities

Perak Section

The UTAR Logistics and International Shipping Society, in collaboration with The Chartered Institute of Logistics and Transport (Perak Section), successfully organized a Logistics Technical Session on Customs Clearance and Global Trade. The session provided undergraduate logistics students with valuable insights into the role of freight forwarders and the process of clearing goods. Special thanks were given to Infinity Logistics and Transport, as well as MOK ET, for guiding the students. The session highlighted the benefits of university-industry collaboration in expanding knowledge and learning opportunities.

Humanitarian Logistics Tour

Corporate Sustainability & Social Responsibility

The Humanitarian Logistics Tour has officially kicked off, showcasing the impressive logistical expertise of the Chartered Institute of Logistics and Transport Malaysia (CILT), the operational support from WILAT Malaysia, NextGen Malaysia, KK Super Mart, and the academic backing of Universiti Utara Malaysia (UUM).

This initiative, named Mission Relief, underscores the power of collaboration between various stakeholders. The tour was formally launched by Prof. Ts. Dr. Muhammad Zaly Shah at UUM on December 8, 2024. It marks a pivotal step in addressing the needs of local communities and strengthening resilience in SK Seri Banai, Jitra, Kedah.

Mission Relief Sponsorship

Corporate Sustainability & Social Responsibility

CSR from WiLAT Malaysia & CILTM Secretariat

The aid delivery to flood victims was conducted at the Flood Operations Control Center (PKOB) in Jerantut, Pahang on 16 Dec 2024. This generous contribution was made possible through a collaboration between WILAT Malaysia, CILTM Secretariat & CILTM Pahang Section aimed at supporting those affected by the recent floods in Jerantut area. Essential food supplies were received by Encik Efendi bin Abdul Razak (Head of Mukim Teh/Mukim Pedah), along with other key officials involved in the aid distribution. These officials included Puan Fatin Akmal binti Azahari (Social Welfare Officer), Encik Ridzuan bin Ramli (Assistant Social Welfare Officer), Captain (PA) Muszaidi bin Musa (District Civil Defense Officer of Jerantut), Lieutenant (PA), and Norasilah binti Abdul Manaf (Deputy District Civil Defense Officer of Jerantut). The donation was handed over by Cik Ida Sharmilla Sr Executive Admin and CPD, representing the CILTM Secretariat. It is hoped that this contribution, though small, will provide some relief to those impacted by the floods

“No Barriers, WiLAT Malaysia and WMIK Ready for Action”

Corporate Sustainability & Social Responsibility

An online meeting was held with the Malaysian Headmasters Association of Kedah, Kedah Malay Teachers Association and Kedah Malay Teachers Cooperative to discuss about the Humanitarian Logistics Tour program. The meeting was also attended by the President of CILTM, the Chairperson of WiLAT Malaysia, the Chairman of the CILTM Pahang Section, Head of Secretariat of CILTM and Pn Siti Head of Corporate Comm KK Mart.

“No Barriers, WiLAT Malaysia and WMIK Ready for Action”

Corporate Sustainability & Social Responsibility

The post-flood relief mission, named the Humanitarian Logistics Tour, took place on December 9, 2024. This initiative was a collaborative effort involving various organizations, including Women in Logistics and Transport (WiLAT), The Chartered Institute of Logistics and Transport (CILT) Malaysia, KK Super Mart, IKK, Universiti Utara Malaysia (UUM), the Malaysian Headmasters Association Kedah, the Kedah Malay Teachers Association, the Kedah Malay Teachers Cooperative, and the Kubang Pasu District Fire and Police Headquarters. Under the theme “No Barriers, WiLAT Malaysia and WMIK Ready for Action,” the mission aimed to alleviate the challenges faced by flood victims by providing logistical support. The relief efforts focused on two schools: SK Seri Banaí, which covers the Hosba and Kodiang zones, and SK Kepala Batas, which includes the Tunjang and Air Hitam zones. Assoc. Prof. Ts. Dr. Jessica Ong FCILT, Chairperson of WiLAT Malaysia and the program, emphasized that the spirit of solidarity and dedication in assisting communities—especially in the aftermath of flood disasters—demonstrates the unity of the people.

CILT Next Generation Malaysia: Shaping the Future of Transport, Logistics, and Supply Chain

The Chartered Institute of Logistics and Transport (CILT) Next Generation chapter serves as a dynamic platform to nurture and support the future leaders of the supply chain, logistics, and transport industry. With the world evolving at an unprecedented pace, the importance of equipping young professionals with the right tools, skills, and networks cannot be overstated.

CILT Next Generation Malaysia is dedicated to empowering individuals at various stages of their professional journey. Whether you are a student exploring the industry, someone considering a career in this field, a newcomer building the foundation of your career or a professional transitioning to logistics and transport, CILT Next Generation offers tailored opportunities to enhance your growth.

The chapter's initiatives include career development programs, mentoring by seasoned professionals, and access to exclusive networking events. These opportunities not only help members gain industry insights but also foster meaningful connections that can shape their professional trajectories. Additionally, the platform serves as a hub for knowledge-sharing, collaboration, and innovation, encouraging young professionals to contribute fresh ideas and perspectives to the industry.

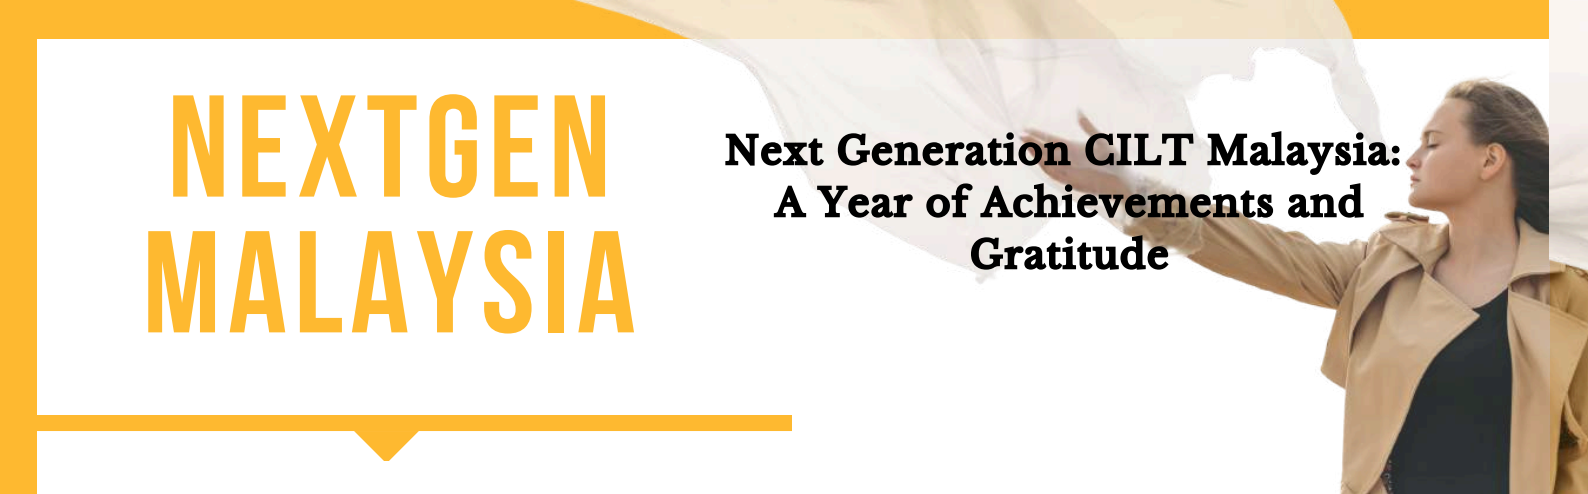

Through its commitment to nurturing talent, CILT Next Generation plays a vital role in ensuring the long-term sustainability and success of the supply chain, logistics, and transport sectors. By investing in the next generation, the chapter is paving the way for a future led by innovative, resilient, and skilled professionals. We continue to be a beacon of opportunity for aspiring leaders, driving progress and excellence in an ever-changing global landscape. Whether you're taking your first step into the industry or striving to make a mark, this vibrant community welcomes you to join and grow together. #Stronger Together!

NEXTGEN MALAYSIA

Next Generation CILT Malaysia: A Year of Achievements and Gratitude

As 2024 draws to a close, Next Generation CILT Malaysia celebrates a year of remarkable accomplishments, growth, and collaboration. With a steadfast commitment to empowering young professionals in the transport and logistics industry, we have made significant strides in fostering innovation, building networks, and enhancing professional development.

This year, we successfully hosted impactful events, including international student exchange programs, leadership and collaboration engagement, and industry-relevant visits and webinars. Our partnerships with academic institutions and industry leaders strengthened our platform, ensuring opportunities for the next generation to thrive in the global logistics landscape.

These achievements would not have been possible without the unwavering support of our dedicated leadership and partners. We extend our heartfelt gratitude to Prof. Muhammad Zaly FCILT, President of CILT Malaysia, for his visionary guidance and encouragement. A special thanks to the CILT Secretariat Office, whose tireless efforts ensured smooth operations in supporting the Next Gen mission throughout the year. To the Management team of Next Generation CILT Malaysia, your strategic planning and commitment have driven us forward.

We also express our deep appreciation to AP Dr. Jesscica, Chairperson of WiLAT Malaysia, and the CILT Council Members for their unwavering support and collaboration. Your belief in our mission has been instrumental in shaping our success and inspiring our members to achieve excellence. As we look ahead to 2025, Next Generation CILT Malaysia remains committed to fostering growth, leadership, and sustainability in our industry. Together, we will continue to innovate and empower future transport and logistics leaders.

Thank you for your trust, guidance, and shared vision. Here's to another year of success and impactful endeavors!

Next Generation, CILT Malaysia

Happy New Year 2025!

*From: NextGen
Malaysia.*

As we step into a new year, we embrace fresh opportunities to inspire, innovate, and lead in the transport and logistics industry.

Together, let's continue to empower young professionals, drive sustainability, and build a brighter future. Here's to a year filled with growth, success, and impactful achievements! Thank you for your unwaverin support.

#NewYear2025

Humanitarian Logistics

How You Can Contribute to Flood Relief and Recover

Ts Dr. Nuur Fathin Roslan CMILT
Senior Lecturer, UniKL MITEC

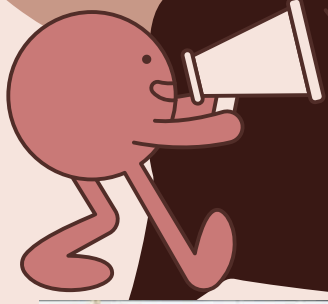

Floods are a major natural disaster, affecting millions globally and causing significant loss of life and economic damage annually. At the end of each year, Malaysia faces recurring floods, driven by several contributing factors that make it worse the occurrence of flooding in the region. Flooding in Malaysia is caused by various factors, including heavy rainfall, especially during the northeast monsoon, which leads to flash floods and riverine floods. Poor drainage systems in urban areas, deforestation, and rapid urbanization contribute to the accumulation of rainwater and hinder proper water flow. Additionally, climate change intensifies the situation by increasing rainfall and raising sea levels, making floods more frequent and severe.

Humanitarian logistics plays a crucial role in disaster response and recovery by ensuring the timely and efficient delivery of aid to affected areas. It involves the coordination of resources, transportation, and supplies to address immediate needs and support long-term rebuilding efforts. Effective humanitarian logistics can significantly reduce the impact of disasters, saving lives and accelerating the recovery process in communities. In such critical situations, all parties need to work together to channel aid to flood victims, fostering a sense of collective responsibility and ensuring that aid reaches those in immediate need. Volunteers and residents often have the knowledge and resources to assist in relocation, provide shelter, and distribute supplies quickly and effectively. When communities come together, they can enhance resilience, rebuild faster, and reduce the long-term impacts of floods.

The coordination of various organizations, such as NGOs, government agencies, and local people, is essential for streamlining the logistics process and ensuring that resources are allocated effectively. Efficient distribution of essential goods like food, water, medical supplies, and shelter materials is a primary responsibility, as these items are crucial for survival in the aftermath of a flood. Additionally, humanitarian logistics supports the rebuilding of infrastructure by managing the movement of construction materials, tools, and skilled labor necessary for post-flood reconstruction, thus enabling communities to recover and rebuild more effectively.

Campaigning to raise awareness about flood relief needs is a crucial way to support disaster response efforts. By using the voice and network, one can help bring attention to the urgency of the situation, whether through social media campaigns, fundraising initiatives, or organizing local drives to collect essential supplies. Campaigning also plays a powerful role in influencing governments, organizations, and decision-makers to act swiftly, ensuring that the necessary resources and support are mobilized quickly to assist affected communities. The collective power of informed campaigning can drive meaningful change and inspire others to act.

In conclusion, individuals and communities play a vital role in flood relief and recovery by donating resources, volunteering their time and skills, and advocating for necessary support. Through financial contributions, donating essential goods, and offering specialized expertise, everyone can make a meaningful impact. By working together, we share a collective responsibility to assist in disaster recovery and help build more resilient communities that are better prepared for future challenges. Every effort, big or small, contributes to the strength and recovery of those affected by floods, fostering a more compassionate and united response to disaster relief.

No need for such fancy trimmings

I REFER to the letter "Ways to keep medical costs down" (*The Star*, Dec 21; bit.ly/40hAko9), referring to the rising cost of healthcare and health insurance premiums. One key factor in this that deserves greater scrutiny is the extravagant spending by private hospitals on lavish premises, particularly opulent lobbies.

These lobbies, often resembling luxury hotel foyers, are undoubtedly impressive, but are they truly necessary?

Such lavish investments, along with their continual maintenance costs, inevitably contribute to higher operational expenses. I'm sure these costs are frequently passed down to patients, resulting in skyrocketing bills.

While it is reasonable to expect hospitals to provide clean, comfortable and welcoming environments for patients, there is a clear distinction between essential facilities and unnecessary extravagance.

Investments should focus on areas that directly improve patient care and outcomes, such as advanced medical equipment, better staff training and critical infrastructure. Spending on aesthetics that do not enhance medical quality is counterproductive and inflates healthcare costs unnecessarily.

Hospital management must rethink their priorities. Patient care should be at the heart of all investments. Building grandiose lobbies to impress the wealthy does little to serve the broader population or alleviate the financial burden on patients and insurers.

Those planning new hospital facilities or expansions should also heed this point: Healthcare is not a competition in opulence. It is a mission to provide the best care at the most reasonable cost. Redirecting resources from vanity projects to meaningful improvements in healthcare delivery will not only reduce costs but also restore public trust in private healthcare.

Women in Logistics and Transport (WiLAT) carried out a flood relief mission in Kubang Pasu

By News Hub Asia Reporter - December 10, 2024

The post-flood relief mission, named Humanitarian Logistics Tour, is a collaborative effort involving various organisations, including Women in Logistics and Transport (WiLAT), The Chartered Institute of Logistics and Transport (CILT) Malaysia, KK Super Mart, IKK, Universiti Utara Malaysia (UUM), the Malaysian Headmasters Association Kedah, the Kedah Malay Teachers Association, the Kedah Malay Teachers Cooperative, and the Kubang Pasu District Fire and Police Headquarters. Under the theme "No Barriers, WiLAT Malaysia and WMiK Ready for Action," this initiative aims to ease the burden of flood victims by providing logistical support and essential supplies.

Photo by WILAT

According to Associate Professor Ts. Dr. Jessica Ong, Chairperson of WILAT Malaysia and the program's organiser, the mission emphasises the importance of fostering a spirit of assistance that transcends race, religion, and ethnicity. The unity displayed during community activities, including a special initiative known as WILAT Malaysia Inspire Kitchen (WMiK), played a significant role by preparing meals for volunteers involved in cleaning the school premises and surrounding areas.

Photo by WILAT

The mission focused on two schools: SK Seri Bana, covering the Hosba and Kodiang zones, and SK Kepala Batas, which includes the Tunjang and Air Hitam zones. The spirit of solidarity and dedication in assisting communities, especially in the aftermath of flood disasters,
